OPERATIONS ANALYST

PROFESSIONAL SUMMARY

Operations professional with a B.S. in Industrial & Systems Engineering and five years driving performance in high-volume fulfillment, freight, and B2B operations. Track record of using data to forecast demand, optimize labor, and improve throughput — including improving an Amazon inbound performance ranking from 23rd to 12th in the network. Combines operational fluency with formal analytics training (Google Data Analytics Professional Certificate).

CORE COMPETENCIES & TECHNICAL SKILLS

Operations Analysis: Demand forecasting, labor planning, throughput analysis, process optimization, inventory management, fulfillment KPIs, root-cause analysis

Data & Analytics: Excel (advanced — pivot tables, lookups, modeling), Google Sheets, SQL, dashboard development, KPI design, performance reporting, Google Analytics

Programming & Tools: Python (introductory — data cleaning, analysis logic), AI-assisted workflow design, Microsoft Office Suite, Google Workspace

Education & Certifications: B.S. Industrial & Systems Engineering, Auburn University | Google Data Analytics Professional Certificate, Coursera (2026)

PROFESSIONAL EXPERIENCE

Independent Consultant, Data & Performance Analytics — Affiliate Marketing

Remote

2024 – Present

- Partner with 8 consumer brands to analyze affiliate program performance; co-developed a dashboard tracking creator output, engagement, and attributed sales to inform creator selection and budget allocation.
- Built Excel and Google Sheets reporting models analyzing CTR, CVR, AOV, and GMV across cohorts; translated raw platform data into actionable recommendations that guided client decision-making.

Outside Sales Rep / Asst. Warehouse Mgr / Logistics Specialist — Keyston Bros

Denver, CO

2021 – 2024 | Promoted twice across logistics, warehouse leadership, and B2B sales

- As Assistant Warehouse Manager: oversaw inventory accuracy, inbound/outbound flow, and staff scheduling; used spreadsheet-based tracking to identify fulfillment bottlenecks and improve order turnaround times.
- As Logistics Specialist: coordinated inbound and outbound freight, managed carrier performance, and supported regional inventory replenishment planning.
- As Outside Sales Rep: owned a regional book of contractor and builder accounts; managed pricing, quoting, and account-level performance tracking.

Logistics Coordinator — BlueGrace Logistics

Tampa, FL

2020 – 2021

- Planned and executed domestic freight movements across multiple modes; analyzed lane-level cost and service data to balance margin and on-time performance.
- Built and maintained carrier relationships; negotiated pricing and tracked carrier performance metrics to inform sourcing decisions.

Area Manager, Inbound Operations — Amazon

Jefferson, GA

2019 – 2020

- Led inbound operations for 100–150 associates in a high-volume fulfillment center; owned daily staffing, labor planning, and execution against productivity and safety targets.
- Built rolling 21-day volume and labor forecasts using historical throughput data; forecast accuracy drove staffing decisions that improved inbound performance ranking from 23rd to 12th in the network.
- Redesigned dock traffic flow and safety protocols, reducing recordable injuries while sustaining productivity gains; used internal reporting tools daily to monitor throughput and prioritize corrective action.
